The E-Lite 5 is a full size road going scooter with one big difference. It's electric and legal for over 14's. It has all the street-cred of a regular petrol scooter and more and at less than half the price you'll be doing your pocket a favour as well as the environment.

It's large comfortable seat makes for a very smooth ride and the removable battery means convenient charging though it can also be charged in situ on the scooter. For legal reasons there is a speed limiter which can be overridden for off-road use.
